Scent Logix

To whom it may concern,

I would like to thank you once again for taking an active interest in helping our canine program and furnishing one of your training aids for testing. The Marijuana Aid has definitely improved the performance of our canines especially in the identification of very small amounts of Marijuana that we deal with in the school environment. It has also helped improve the dogs' ability to identify the larger amounts that we train on when training with neighboring agencies that deal with the large sources.

This aid has been greatly appreciated since we have not been able to store and use actual substances in our daily training without training with another agency. The use of the exact scent signature of Marijuana proved to be effected alternative and help to address our training needs. We will be purchasing the other Narcotics scents with the expectation of the same results.

Sincerely,

Fred Kemper
MNPS Security K9 Handler/Trainer
